

# Simplify IT Operations Management With SolarWinds

The SolarWinds ITOM framework is an easy-to-understand construct including six key technology pillars.

## The SolarWinds ITOM Mission

Help organizations simplify their IT operations management by providing solutions designed to be integrated, simple to use, powerful, and affordable.

### FIX A PROBLEM

If you have a challenge in any area of ITOM, we have a product to help you solve your problem quickly and efficiently.

### INTEGRATE SOLUTIONS

Many SolarWinds ITOM products already are integrated and can help organizations get “single pane of glass” management with rich functionality.

### DEVELOP A STRATEGY

We believe simplifying ITOM should be a critical part of every IT strategy. We help organizations move faster, be more agile, and deliver critical business services with confidence.

## Application Performance Management

- Monitor the digital experience to help ensure users are satisfied
- Monitor the performance of applications that run your critical services
- Identify issues that impact applications or cause them to fail

Digital Experience Monitoring

WEB PERFORMANCE MONITOR

PINGDOM®

SERVER & APPLICATION MONITOR

APPOPTICS™

Application Performance

LOGGLY®

## Database Management

- Help ensure applications relying on database performance are performing optimally
- Identify performance issues across multi-vendor databases
- Quickly respond to and resolve database performance issues

Database
